

# Extra Protection Available with Versi-Drawer™ Hard Drive Organizers

The newest member of the Versi-Drawer™ family offers added protection and convenience for transporting and storing external and portable hard drives.

All Hard Drive Organizers are built using precision-cut steel and will hang in any legal size filing system, but work best when paired with an Alpha Safe GSA Approved Class 6 security container. Designed to work with the Versi-Drawer™ system, the organizers were built to protect external hard drives, access cards, and other electronic devices.

## Lined with Anti-Static Foam

Designed to accommodate most of the external hard drives available on the market today, simply pull out the pre-cut foam to surround the hard drive, cables or other items you want to store, creating a snug fit. The anti-static foam helps protect sensitive electronic devices from electrical discharge.

## Combination Lock Option Available

All Hard Drive Organizers are built with firmly locking lids and hinge clasps, to keep the items inside secure while in storage or travel.

Hard Drive Organizers are priced at \$200; organizers with combination locks are available for \$225. A 10% discount is available on orders of five or more, in any mix.

## Mix and Match as Needed

Hard Drive and Laptop Organizers can be used together in the same drawer in a variety of combinations.

- See reverse side for ordering and shipping information, including Form 700 and 702 holders.
- Free shipping on all accessory orders in CONUS.
- Own an older Alpha Safe security container made before 2013? Call today to review your options.
